

THE FASTEST CASE ERECTOR FOR HIGH-VOLUME PACKAGING LINES

The Wayne Automation VCE Case Erector is the ultimate solution for high-speed case forming, delivering up to 75 cases per minute. Engineered for efficiency and reliability, it ensures flawless case erection and sealing—even with long or weak-walled cartons.

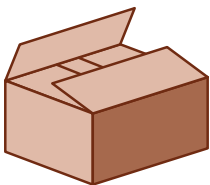

Specifications:

- **Speed:** Handles up to 75 cases per minute
- **Maintenance:** Centralized lubrication points and Machine Condition Monitoring sensors available
- **Safety:** Lexan doors with anti-intrusion switches, rotary brake locks, and multiple emergency stop stations

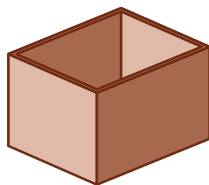

Key Features:

- **High-volume production** with minimal down time
- **Secure gluing** with inside/outside compression mandrels
- **Vertical case discharge**
- **Tool-free changeovers**
- **Optional Automated Magazine Loader**
- **Servo-operation** with variable speed
- **Secure operation with KeyGuard Control®**

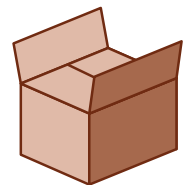

Case Styles: Supports RSC, HSC, and AFM cartons of varying sizes and strengths

Regular Slotted Container (RSC)

Half Slotted Container (HSC)

All Flaps Meet (AFM)
